Greetings from CANVAS

Wish you were here!
Canvas is here, it’s better, and it’s time to make the switch!

Scholar will be going away May 2017. This summer, make plans to move your course content or build new material in Canvas.

To help you make the switch, TLOS is offering a range of resources including traditional and online classes, one-on-one Canvas consultations, course redesign consultations, and detailed guides and instructions - plus dedicated 24/7 customer service from Canvas. We can even come to your department to get everyone started at once.

So let’s do this! Visit tlos.vt.edu/NextGenerationLMS to review your options, then log into canvas.vt.edu to get started. You can even delegate tasks to your GTAs, no problem! Getting started is easier than you think - and your students will thank you.
